- **Databases:** MongoDB, SQL
- **Tools:** VS Code, IntelliJ IDEA, Git/GitHub, Postman, Canva, Docker
- **Other:** Problem Solving, Data Structures and Algorithms

Experience

• PROTONIX AI PVT LTD.

Role: Full-Stack Developer

From: 12/05/2024 TO: Present

[\[Link to project\]](#)

- Designed and developed the company's website using React.js, ensuring a fully responsive and visually appealing UI. Implemented smooth cursor-responsive animations for an interactive user experience.
- Optimized website performance, improving load times and overall efficiency. Ensured seamless user experience across all devices through modern front-end techniques.
- Developed a stylish and elegant boutique website with React.js, incorporating modern UI/UX principles to enhance customer engagement.
- Integrated smooth animations and transitions, creating a visually appealing and seamless shopping experience. [\[Link to project\]](#)

Projects

• Study-Notion EdTech Platform

Role: Full-Stack Developer

MERN Stack

[\[Live Project Link\]](#)

- Developed a scalable e-learning platform using the MERN stack (MongoDB, Express.js, React.js, Node.js), supporting seamless course creation, enrollment, and management.
- Integrated a secure payment system to enable paid course access, resulting in a 20% increase in user engagement.
- Implemented optimized content delivery systems and real-time interaction modules, enhancing the user learning experience.

• Malkhana Management System

Role: Back-End Developer

MERN Stack

[\[Live Project Link\]](#)

- Built an evidence management system tailored for police stations, streamlining and digitizing the workflow of evidence handling.
- Developed secure and scalable RESTful APIs for user authentication, authorization, and real-time tracking of physical evidence.
- Ensured data integrity and compliance with security protocols, reducing human errors by 25%.

• Developer Portfolio

Role: Full-Stack Developer

React.js

[\[Live Project Link\]](#)

- Designed and developed a personal portfolio website using React.js to showcase web development expertise and dynamic UI components.
- Integrated project highlights, technical skills, and smooth animations to create an engaging and interactive user experience.

• CardPouch

Role: Full-Stack Developer

React.js, Express.js, MongoDB, Node.js, REST API, Postman, Cloudinary

[\[Source Code\]](#)

- Developed a credit card comparison website using React, Tailwind CSS, and Node.js, integrating Cloudinary for media uploads and MongoDB for data storage.

- Implemented secure token-based URL routing for admin access, eliminating the need for traditional login/signup processes.
- Designed an intuitive and responsive user interface to facilitate easy credit card exploration and comparison.

Education

- **Parul University** 2021 – 2025
B.Tech in Computer Science and Engineering Vadodara, India
 - GPA: 7.52/10.00
- **Shree Lokmanya Vidyalaya** 2021
GSEB HSC Surat, India
 - Grade: 62%

Certifications

- **Hackathon:** [Hack The League](#) May 2024
- **NPTEL:** [Data Analytics with Python](#) April 2024
- **Udemy:** [Docker for java Developer](#) January 2025
